Database Management | SQL Development | AI Prompt Engineering | AI-Assisted System Analysis | Project Management

## SUMMARY

BBA student in Management Information Systems with hands-on experience in database design, SQL, Python, MySQL, and Microsoft Access. Skilled in data modeling, system analysis, and prompt engineering to improve business operations. Strong focus on data integrity, accuracy, and performance monitoring. Experienced in project coordination and implementing structured data solutions. Seeking an HEB internship to apply technical and analytical skills in a professional environment.

## KEY SKILLS

SQL | MySQL | Python | Microsoft Access | Database Design and Management | System Analysis | Data Accuracy | Workflow Optimization | Project Coordination | Performance Monitoring | Artificial intelligence queries |

## PROFESSIONAL EXPERIENCE

**Remote IT Systems Intern**  
**Fran's Grocery**

Jul 2025 – Present

- Designed and implemented a relational database schema for data recording.
- Developed backend logic for multilingual interfaces, supporting 5+ user accounts efficiently.
- Built a custom POS system using Python, MySQL, and assisted by ChatGPT.
- Configured offline database functionality to maintain operational continuity during network outages.

**Personal Shopper**

Nov 2022 – Present

**H-E-B**

- Performing under pressure in a fast-paced work environment where attention to detail is required.
- Utilizing H-E-B internal systems to track and manage order fulfillment for 200+ weekly orders.
- Using digital tools, such as FAST, when necessary to complete online orders with accuracy at UPH 110+

**Parts Runner**

Jan 2024 – Aug 2024

**Mercedes-Benz of The Woodlands**

- Processed and delivered 70+ parts orders weekly with accurate documentation and communication.
- Maintained inventory accuracy at 95% using normal distribution statistics
- Coordinated workflow with service technicians to ensure 100% on-time parts delivery.

## SELF EMPLOYED

**Custom Homebuilding Management**

- Coordinated materials, labor, and inspections for on-time project delivery.
- Applied activity-on-node (AON) methodology to optimize task sequencing.
- Efficiency and visibility across all construction phases are enhanced by utilizing project management techniques.

**Rental Property Development**

- Managed property development, generating \$18,000+ annual revenue through strategic 83% ROI builds.
- Developed tailored construction plans and financing solutions for clients with limited credit access.
- Monitored budgets, timelines, and resource allocation to maximize profitability and operational efficiency.

## EDUCATION

**Sam Houston State University**

Expected Dec 2026

Bachelor of Business Administration (BBA), Management Information Systems

## OTHERS

**TECHNICAL SKILLS:** Copilot, AutoCAD, Office 365, QuickBooks, SQL, MySQL, Python, Access, Data modeling

**SOFT SKILLS:** Communication, Head for business, Critical Thinking, Time Management, Project Management, Analytical Thinking

**LANGUAGES:** English (Native), Spanish (Fluent), French (Intermediate), Japanese (Elementary)
